WELCOME

Chemical Solutions is a family run supplies business created by Brendan Kennelly in 1992. Initially a London based Janitorial supplier, the business has grown to include Medical Supplies, Construction Supplies, Catering Supplies and more. Worried that this expansion may distance themselves from their Stevenage based janitorial customers, sons Ricky and Daryl pitched a new branch of the business, one that focuses solely on the Hertfordshire schools and businesses that have been the backbone of the company for so long.

With a focus on supplying the best service and products possible, Herts Cleaning Supplies takes everything we have learned from working with our local schools and businesses and creates a unique service tailored specifically for them. We made a whole new website which allows customers to place orders online and then be invoiced later. We offer completely free staff and COSHH training, free equipment hire and dispenser loans and most importantly, we supply new and completely sustainable paper products made from sugarcane.

We cover a wide range of products with more available on request.

We offer free equipment hire to all of our regular customers.

Orders in Hertfordshire over £30 will receive free delivery and are usually delivered within 2-3 days.

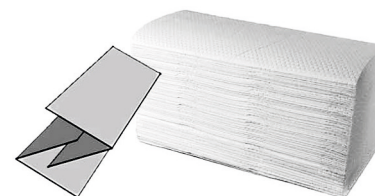

We sponsor and support local events and small businesses, ensuring communities are given the opportunity to grow.

Flushable Hand Towels

Our new Sugarcane Flushable Hand Towels are designed to completely break up when flushed down the toilet. This can save you money on plumbing issues whilst making our environment a safer place.

Dishwasher Salt £5 	Dishwasher Tablets £5 	Paper Straws £3.99  Pack of 100	Half Pint/Pint Glasses POA 

Water Soluble Cleaners

Our water soluble sachets are a fantastic, environmentally friendly addition to our catalogue. These sachets drastically reduce plastic use and allow you to re-use old bottles instead of constantly purchasing new ones. Just one sachet is enough to fill a whole 1 litre bottle, meaning that one box of 20 sachets is the equivalent of 4 x 5 litre bottles. There is no risk of coming into contact with hazardous cleaning liquids. Our sachets work by simply dropping them into a bottle of warm water and shaking.

Foaming Hand Wash £14  Pack of 20	Multi Purpose Cleaner £10.37  Pack of 20	Air Freshener £10.86  Pack of 20	Bathroom Cleaner £10.37  Pack of 20

Toilet Cleaner £7.34  Pack of 12	Machine Dishwash £10.86  Pack of 20	Laundry (2-1, Bio & Non Bio) £10.86  Pack of 20	Washing Up Sachets £10.86  Pack of 20

Causes skin irritation/eye irritation

A non-corrosive preparation, which through immediate, prolonged or repeated contact with the skin or mucous membrane, can cause inflammation. Products with moderate levels of surfactants. The use of suitable clothing, gloves or eye protection is recommended to avoid contact with skin &/ eyes.

Harmful if inhaled/swallowed/contact with skin

A preparation which may pose an aspiration toxicity hazard to health, if swallowed & then refluxed into lungs. Products with high levels of kerosene. Avoid any possibility of ingestion.

Causes severe skin burns and eye damage

A preparation which may destroy living tissue on contact, it may also be Corrosive to certain metals. Products with high levels of caustic soda. Avoid contact with skin & eyes. Wear protective equipment to prevent skin & eye contact (E.g. Overalls/Gloves/Goggles).

Extremely or highly flammable liquid or vapour.

A liquid preparation having a flash point of less than 23°C. Products with high levels of highly flammable solvents. Keep away from sources of ignition. Keep away from heat/sparks/open flames/hot surfaces – No smoking.

Very toxic to aquatic life

A preparation that if allowed to enter natural water courses would (or may) present a danger to the Aquatic environment. Products with high levels of environmentally hazardous material. Dispose via sewage drains for water soluble products or as hazardous waste by registered contractors. Do not release straight into rivers.

May intensify fire: oxidiser

A preparation which gives rise to a highly exothermic reaction in contact with other substances, particularly flammable substances. Products that contain an oxidising agent. Keep away from flammable and combustible materials. Store in a cool place away from direct sunlight.

All sacks are recycled and are sustainable for the environment.

Ethical quality is our priority!

We source environmentally friendly products that meet our sustainability standards so that you don't have to worry about if you're making the right purchase.

Bamboo Sugarcane Paper

All our bamboo products are plastic free and zero waste, they are all produced with **100% planet saving sustainable materials**. Tiboo Pure Bamboo toilet rolls are super soft and strong, ensuring a premium experience without sacrificing quality for sustainability. **Bamboo is 98.9% more efficient** because bamboo takes 1 day to grow, whereas tree takes 3 months just to grow 3 feet. With bamboo you feel the love with each wipe and at the same time help save our planet.

Every day we witness the increasing effects of global warming with deforestation being a massive contributor. With trees being harvested for such things as toilet paper, the knock-on effect is alarmingly clear. Our sugarcane products are set to change that. If we all switched to bamboo toilet rolls **we could stop 1,183,005t of CO2** entering our atmosphere because bamboo releases **75.8% less CO2** than tree-based toilet rolls.

Recycled Bags

All Chemical Solutions bags and sacks are from sustainable sources who use minimal additional packaging in the products themselves, as well as the transportation of said products.

Our bags are **recycled as well as repurposed** when possible. We encourage customers to reduce waste by recycling or repurposing our bags at the end of their lifecycle as well if possible. Product packaging and packaging used in transit is **recycled, reused or refilled** and contains **recycled content**.

PVA - Water Soluble Cleaners

Our water soluble cleaners allow customers to re-use plastic bottles over and over again, ensuring that plastic use is kept to an absolute minimum. We provide different coloured lids rather than different coloured bottles to help keep wastage down. **Reduce Carbon Footprint By 95%** - Compared to transporting liquid concentrates. **Reusable Plastic** - reduces waste by 90% compared to traditional cleaning solutions. **Recycled Packaging** - All packaging is recyclable, and our pouches are also cowmpostable.

Biodegradable, Pre-Dosed Formulations - No risk of chemical overdosing, which has the potential to negatively impact the environment.

Our delivery drivers use the latest in delivery software which allows for completely **paper free deliveries**.

Reducing carbon footprint is a crucial step in mitigating the effects of climate change, so we plan on using **electric vehicles** in our day to day operations as well to help do our part for the environment.

Chemical Solutions sponsor many local events and help provide cleaning stations so that event goers can stay as safe as possible during these post Covid times. Chemical Solutions supports other small and medium sized businesses, ensuring that the local economy is boosted and communities are given the opportunity to grow and thrive.

Website

You can place orders on our website at HertsCleaningSupplies.com

Navigate to our Products page and you will be able to select items to add to your cart.

Head to the Cart page if you need to make amendments to your order. If everything looks correct then proceed to Checkout.

On the checkout page you will be able to select pay by invoice. We will then invoice you when delivery is made. No upfront payment is necessary.

All invoices are made under the Chemical Solutions name and payments are received via the Chemical Solutions Account.

Delivery Information**We only deliver to the following areas:**

Hertfordshire, Bedfordshire, Buckinghamshire and London.

We can deliver to other areas upon request but delivery will entirely depend on the order itself. Please contact us via email if this applies to you.

Delivery Costs

Regular customers receive free delivery.

Non regular customer's delivery costs are dependent on the financial amount of the order, the delivery location and how quickly delivery needs to be.

Hertfordshire residents can receive free delivery on all orders over £30. Orders less than that will be subject to a delivery charge.

Bedfordshire/Buckinghamshire residents can receive free delivery on orders of £50. Orders less than that will be subject to a delivery charge.

London residents delivery costs depends entirely on the order and the date in which the delivery needs to be made. We travel frequently into London but still try to make all our London deliveries on the same date.

Click & Collect

Customers are more than welcome to visit our premises and collect items themselves. We are based at Unit 39 Wedgwood Way, Stevenage, Hertfordshire, SG1 4QT.

What are our opening hours?

Our opening hours are:
9am to 4pm – Monday to Thursday
9am to 12pm – Friday

Do I need an account to order?

An account is not needed to make an order from our website. Just simply enter your delivery details on the Checkout page and you're good to go!

Why don't all the products have prices?

The prices on our items can change quite often depending on the environment. Sometimes our supplier has to raise the price on certain items and we must then add the increase to our prices. We try to keep them up to date but with so many products it can be quite impossible. Things such as ordering a large volume of items can also make us more flexible with our prices.

Why am I unable to pay online?

Unfortunately we only deliver to certain areas, therefore restrictions have been applied to our online store based upon the order amount and your delivery address. If you are finding that you can not purchase your items online, then you are either based outside of our delivery area or your order is simply too low. If this happens, please feel free to contact us either by phone or email and we can discuss whether or not we can fulfil this order for you.

What ways can I pay?

Customers can pay in the following ways:

Cash
Credit/Debit Card
Bank Transfer
30 Day Credit

What is 30 day credit?

If you are a business then we are happy to offer you 30 days to pay for your items. As a businesses ourselves, we are more than aware of the trouble that can come from needing to order items whilst waiting for payments from your customers. So if you choose the 30 day credit option then we will e-mail you an invoice of your order and then you have 30 days to pay us in whichever way we have listed.

Coming Soon

Targeting New Areas

We are working with suppliers to help deliver an even wider range of products suited towards our existing customers' needs. We are targeting different areas towards stationery, office supplies, catering supplies, and more.
